APPLICATION NO.: 10/566,884	CONFIRM. NO.: 9515
FILING DATE: February 1, 2006	ART UNIT: 2858
TITLE OF INVENTION: Arrangement For Measuring The Torque Of Rotating Machine Parts	EXAMINER: V. Q. NGUYEN

MS AMENDMENT
COMMISSIONER FOR PATENTS
P.O. BOX 1450
ALEXANDRIA, VA 22313-1450

April 17, 2008

STATEMENT OF SUBSTANCE OF INTERVIEWS, INCLUDING AN ATTACHED COVER
SHEET WITH CERTIFICATE OF MAILING

Dear Sir:

- 1) This is a required Statement of Substance of Interview, and thus does not cause a reduction of the Patent Term Adjustment (PTA).
- 2) In a Telephone Interview on March 10, 2008, the Examiner pointed out certain informalities in claims 1 to 3, which had been directly translated from the corresponding PCT International claims. The Examiner indicated that the claims are allowable, but that these informalities should be corrected. In a further Telephone Interview on March 10, 2008, the Examiner and the undersigned attorney discussed and agreed upon formal revisions in claims 1 to 3 for US claim style purposes.

- 3) In a Telephone Interview on March 25, 2008, the undersigned attorney pointed out minor clerical errors in the Examiner's Amendment enclosed with the Notice of Allowance of March 18, 2008, and the Examiner agreed to issue a corrected Examiner's Amendment with a Supplemental Notice of Allowability.
- 4) In a Telephone voice mail message to the Examiner on April 3, 2008, the undersigned attorney notified the Examiner that a minor clerical error still exists in claim 2 in the Examiner's Amendment enclosed with the Supplemental Notice of Allowability of March 28, 2008. Particularly, in the last line of claim 2, "(i0)" should be changed to --(10)--. This was corrected in the further Examiner's Amendment enclosed with the Supplemental Notice of Allowability of April 9, 2008.

Respectfully submitted,
Manfred KREUZER
Applicant
